OUR MISSION

According to relevant researches, people around the world are changing their way to eat, such as eating more various of food, in more places, and in more ways than before. And all we mentioned above is actually bringing us a great numbers of challenges and chances.

Under this circumstances, Easy Green, named after the goal that we go green in an easy way, was created in 2009 as an eco-friendly packaging company and quickly earned reputation in international market. We aim to offer proper package for 252 (love what I love) kinds of different foods. Not only do we want to make food look great, but also we want to keep it safe and sustainable too.

Today, we adhere to the reusable, recyclable, sustainable and low-carbon development route, while involving consumers in better use of safe, environmentally and friendly packaging, at the same time, making environment become better. It's our honor to work with all customers and users together to protect mankind's only "global village". Let's make it from now on!

COMPANY PROFILE

EASY GREEN is a R&D based enterprise dedicated to sustainable packaging. Meanwhile, we aiming to provide eco-friendly packaging for customers with whole industrial chain of product design, sample development, mold manufacturing, and finished goods production.

Easy Green, just for good food. Let's work together for eco-friendly packaging solutions and make the world Easier and Greener.

Just For Good Food

FOOD GRADE RECYCLED PET CONTAINERS

EASY GREEN, manufacturer of efficient and sustainable thermoformed packaging for food service, medical service, electronic service. **Qualified with FDA/ EFSA certificates**, our PCR PET products are **100% recycled from Post-Consumer Beverage Bottles**. Our ultimate goal is full customer satisfaction, serving your expectations and needs efficiently. We help our global partners to achieve ESG goals.

Features

- Food grade, FDA & EFSA certified
- ABA Multi-layer / Single Layer
- RPET content percentage: 30% -100%
- Excellent flavour barrier properties
- Easy thermoforming characteristics
- Excellent impact resistance
- High transparency and gloss

Food Containers

Our food containers are very environmentally friendly as they can be reused multiple times, reducing the need for single-use plastic bags and containers. They are recyclable, making them a sustainable choice for storing food. Keeping food fresh and organized while also contributing to a more sustainable environment.

A hand is shown placing a slice of lemon into a clear PET cup. The cup is filled with a yellow liquid, likely lemonade, and contains several other lemon slices. A red circular stamp with the text 'r-PET Food Grade' is visible on the cup. In the foreground, a clear PET lid is lying on a wooden surface. To the left, a blurred red cup is visible. The background is a warm, orange-toned wall.

Cold Cups And Lids

Customize your eco-friendly PET cups: unparalleled clarity, durability, and BPA-free assurance. Embrace sustainability while showcasing your unique style with personalized designs.

· 13 ·

A red circular seal with a scalloped edge. The text "Food Grade" is written in white at the top and bottom. In the center, "r-PET" is written in large, bold, white letters.
